

Verge Landscaping Application Form

The City encourages residents to improve and maintain the verges adjoining their property. Property owners are required to submit a proposed landscape plan for approval.

Property owners are required submit a proposed landscape plan for approval along with this signed Verge Landscaping Application Form.

I/We understand and accept the following conditions:

- Accept responsibility for the material placed on the road verge.
- Accept responsibility for any damage done to property or injury to persons resulting from or arising out of work undertaken within the road verge.
- Accept that the area must be maintained by the owner(s) and kept in a neat, tidy and safe condition.
- Acknowledge that Council or any other public utility body or its agents or servants have no responsibility whatsoever to reinstate any treated area disturbed by the works carried out in the verge.
- Understand that approval of this proposal does not restrict the rights of any other person to the free use of the verge.
- Agree to remove any treatment within 14 days of written notice to do so by the City of Armadale.
- Understand that this is an application only and no works will be undertaken until written approval is issued by the City of Armadale.
- I/We certify that the proposed works will be constructed in a safe manner in accordance with the requirements of the City of Armadale and to the detail shown on the sketch plan accompanying this application.

Declaration

I/ We agree to accept responsibility for watering and maintaining verge landscaping.

Please email completed form and proposed landscape plan to info@armadale.wa.gov.au. The City Parks Project Officer will assess your request and notify the resident of the outcome.

Proposed Landscaping Plan

Grab a pencil and draw your proposed verge landscape plan on the grid below! Please show any existing features (eg. street tree or light pole) and include any proposed landscape treatments!

- Show basic layout and measurements
- Show kerb line, light poles, footpaths, driveway crossover and letterbox
- Show existing verge tree(s), vegetation, plants and materials (if any)
- Show proposed plant list and proposed plant locations
- Show proposed material to be used (mulch, paving, stone)
