

# Battery Recycling

## School Collection Program

Thank you for your interest in the City of Armadale School Battery Recycling Collection Program. The battery collection program is an important part of managing our waste and helping to reduce negative impacts of our waste on the environment. Batteries collected in this program are able to be recycled into new products.

Once your school is registered we will provide collection containers for placement in your school, an introduction pack which includes information on how the program works, what happens to the batteries after the collection, posters for your classrooms and a letter for parents to encourage battery recycling at home.

**Please fill out the registration information below:**
